[STATUS]

Please wait while the system translates the event.
Estimated time: ∞

[ERROR]

[HINT]

The selected event refers to multiple ruptures.
Please be more specific.

[STATE]

Process paused

[MEMORY CORE]

Your fear cannot be restored. This may happen because:
- it contains unique details
- it cannot be pasted
- it was never deleted

[IO]

Searching for previous versions in cache...

[NOTICE]

A distorted version of what you have been through is still saved on this device.

[WARN]

To avoid overwriting, renaming is required.

[OK]

rename_success()

[STATE]

contents unchanged

[CB]

Clipboard status = NOT EMPTY

last_copied = "silence"

[SYNC]

Some newer versions of this silence exist.
